RE: SHPO Case No. 22-0235  
Yachats Pocket Parks  
Removal of 4-6" of surface gravel and replacement with topsoil and native plants  
Ocean View Drive, Yachats, Lincoln County

Dear Mezeika:

Thank you for submitting information for the project referenced above. According to our records there are previously identified archaeological objects or sites (Oregon Revised Statute [ORS] 358.905), or Native American cairn, burial, human remains, sacred objects and objects of cultural patrimony (ORS 97.740-760) in or adjacent to the project area. Our office recommends an archaeological resources investigation prior to project implementation.

This recommendation is meant to assist with compliance of state law. Under ORS 358.920 and ORS 97.745, archaeological sites, objects and human remains are protected on both state public and private lands in Oregon.

A list of contractors can be found on the Association of Oregon Archaeologists website ([www.oregonarchaeologists.com](http://www.oregonarchaeologists.com)). This list includes qualified archaeologists in the state of Oregon. Some of these contractors have professional staff to address built-environment resources. For assistance in hiring a contractor, our office has published advice in Archaeology Bulletin 4 (<https://www.oregon.gov/oprd/OH/Documents/Bulletin4.pdf>).

If the project has a federal nexus (lands, funding, permitting, or oversight) coordinate with the lead federal agency to ensure compliance with Section 106 of the National Historic Preservation Act. If you have not already done so, be sure to consult with all appropriate Native American tribes regarding the proposed project. Additional consultation regarding this case must be sent through Go Digital. In order to help us track the project accurately, reference the SHPO case number above in all correspondence.

Please contact our office if you have any questions, comments or need additional assistance.

Sincerely,

Jamie French, M.A.  
Assistant State Archaeologist
