MEMORANDUM

DATE: March 4, 2021
TO: City of Yachats
FROM: Justin Peterson, Planner, OCWCOG
RE: **Planner's Report**

Summary

The planner continued to receive a high number calls and emails from property owners, interested buyers, and other inquires in February. I traveled to Yachats most weeks and worked remotely if I had a schedule conflict. I traveled to Yachats February 9th, 16th, and 23rd.

I am available to serve in a limited role as the City searches for a City Planner. The last several months other projects have been put on hold and I need to transition my time. The City is in the process of hiring a new planner. I will be able to spend around 8 hours a week on Yachats Projects depending on my other work projects. Inquiries will be answered in the order received.

Building Permits

In February the City received two building permits. In addition, two permits were received so far in March.

Date Received	Type of Permit	Zoning	Address	Status
2/19/2021	Foundation Repair, New Beam	R-1	223 Lincoln Street (14-12-26 CB TL 4100)	Pending

Total	Single Family Homes: 13 Manufactured Homes: 3		

Projects

- Staff had a meeting with DLCD's Laura Buhl in December discuss Parking. DLCD Staff put together a memo about potential options. Planning Commission reviewed the Memo at the January Planning Commission meeting. A formal recommendation was made at the February meeting to move forward with Option 2 identified in the memo. Staff reached out to Laura and she asked for a letter and City Council Resolution.

- The Hazard Ordinance was approved by City Council and was by title at the February meeting. This Ordinance is applicable starting March 17th, 2021.
- Planning continues to work with Planning Commission and City Council on the Lighting Ordinance.

Should the Planning Commission encourage or discourage fences, hedges and walls?
(In the Comprehensive Plan the city encourages tree planting on ridgelines to protect the view.)
(5.08.090A minimum heights)
(9.28.030 view screening required)
(9.64.010 maximum heights in required yard)
(9.68.030 minimum heights)
(9.68.040 maximum heights)

Do we need a general ordinance regulating the heights of fences, hedges and walls?

Do we need an ordinance regulating the maintenance of hedges between properties?

If the Planning Commission regulates the height of fences and walls, should solid hedges get the same height limits? What about partially solid hedges which partially block a view?

If you feel a limit on the height of fences, hedges, and walls is needed, what height should that be?

Between residential properties?

Between residential and commercial properties?

Do you agree that good fences make good neighbors?

Do you feel that fences are ugly?

Do you feel that walls are ugly?

Do you feel that hedges are ugly?

Do you feel that fences, hedges and walls block the view, or enhance the view?
