

Boardwalk Funding Clarification

It was pointed out to me that during the public data-gathering meeting a number of audience members heard me say that the Boardwalk project is funded. I should have provided the following details: The City has a list of several grants for the project that the City will be a strong contender for, and this project qualifies for Visitor Amenity Funds. In addition, the City and Lincoln County will be having discussions on the use of 804 mitigation funds for application to this project.
